

## Clean Marina Programme Application Form

The New Zealand Clean Marina Programme aims to promote marinas, yacht clubs, boat clubs, slipways, boatyards, and associated industry operations that can demonstrate their voluntary commitment to reduce pollution and enhance the environment.

Facilities who can demonstrate they consistently use Best Management Practices that reduce environmental impact will be designated as a 'Clean Marina' and be awarded a specific level of achievement within the nationally recognised 'New Zealand Clean Marina' accreditation programme.

### LEVEL 1 – THE PLEDGE

As the first step toward achieving Clean Marina status, on behalf of

\_\_\_\_\_ (name of facility), we pledge to do our part to maintain an environmentally responsible business.

By signing this pledge we commit to actively pursue designation as a New Zealand Clean Marina.

Opportunities will be identified and Best Management Practices implemented to control pollution associated with:

-  Marina Operations
-  Boatyard Operations
-  Fuelling Operations
-  Maintenance Programmes
-  Facility Management
-  Emergency Planning
-  Environmental Management
-  Environmental Education

Within one year of signing this pledge, we will review our entire operations, implement appropriate Best Management Practices and will apply to the New Zealand Marina Operators Association for recognition as a New Zealand Clean Marina.
